Facts

- This library was built through a unique collaboration between the City of San Jose and San Jose State University.
- The building has capacity for 2 million volumes.
- The Library is situated at the northwest corner of the San Jose State University campus.
- A large Redwood tree had to be cut down to make way for the new building, but the tree was milled into a veneer that was used to clad a set of columns inside the building.
- Largest library west of the Mississippi River to be built at one time, including the new Seattle Central Library and the new Minneapolis Central Library.
